## MONO-3D - SPECIFICATION BROCHURE

The **MONO-3D Museum grade Showcase system** is light-weight and demountable. It is ideal for temporary exhibitions while equally at home in a permanent installation. With its precision made frame, concealed locks, tamperproof hinges, inter-changeable seals, and design compatibility with MONO case-fronts, it satisfies the highest standards of environmental sealing and security.

- DESCRIPTION:** A fully framed and hinged Showcase System Constructed as a 3 dimensional framed case with side hinged doors.
- METALWORK:** 54 mm aluminium sections 2-pack automotive paint finish in standard range of available colours.
- GLASS:** 8.38 mm 3-ply laminateg glass which absorbs up to 99% of UV radiation (wavelengths from 320-380 nanometres) - Shelves: 8mm toughened glass.
- SEALS:** High density Polyethylene foam (white) adhered with acrylic adhesive and, either nylon conformable brush seals (colour - grey), or extruded silicone seals (colour - light grey).
- LOCKS:** 2 concealed Abloy executive series cam locks per door are supplied to either a unique suite or to match an existing suite. The suite registration will be signed over to the customer on completion of the installation.
